APA Ranks 2nd Nationally and 1st in Texas in 2009 National Science League Chemistry Competition

Assalamu Alaikum wa Rahmatullahi wa barakatuhu

Four high school students from APA recently took part in the National Science League chemistry competition. APA was among 48 schools from 21 states that participated.

Alhamdulillah, APA ranked 2nd place nationally and 1st in the state of Texas! *APA students have made us proud once again!*

We congratulate our students for their achievements in this prestigious nationwide competition, and express our gratitude to the teachers and parents for their support and hard work. Special thanks and appreciation goes to our chemistry teacher, Sr. Nahed, for her hard work and commitment to the success of our students.
